SUMMARY

I am an Environmental Engineer turned Full-Stack Software Engineer that enjoys building user friendly applications to help solve real world issues using a variety of languages such as C#, ASP.NET Core MVC, SQL, CSS, JavaScript, and HTML. I know that my attention to detail, self-discipline, communication skills, and the ability to work in a team environment will make me a great asset. I enjoy learning and continuing to grow on a personal and professional level.

SKILLS

- C#
- SQL
- HTML | CSS | JavaScript
- ASP.NET Core MVC
- MySQL
- Dapper ORM
- RestAPI | WebAPI
- LINQ
- JSON
- Visual Studio | Visual Studio Code

EDUCATION

Full-Stack Software Engineering

TrueCoders
[View NFT Certificate](#)

BS in Environmental Engineering, Minor in Economics and Business

Colorado School of Mines
[View Diploma](#)

Additional Certificates – [View All](#)

C# - Sololearn
 SQL - Sololearn

PROJECTS

[Event Tracker – ASP.NET Core MVC | C# | SQL | HTML | CSS](#)

- Created functionality for INSERT, SELECT, UPDATE, AND DELETE to be utilized for accessing/altering the data stored in MySQL database
- Used C# to create the ability to sort and filter each table
- Utilized Dapper to query the data received from the database

[Taco Parser – C# | .NET Core | Geocoordinates](#)

- Utilized TDD with unit tests to facilitate coding process
- Parses CSV file for latitude and longitude, converts to Geocoordinates, and then returns the two Taco Bells located farthest apart

[Weather Map – C# | .NET Core | API | JSON](#)

- Utilizes an API to provide weather data for a user specified city
- Worked with JSON Objects and JSON Arrays
- Parses the file to search for specific data

Additional Projects:

- [BestBuy Database](#) – ASP.NET Core MVC | C# | SQL | HTML | CSS
- [Kanye Vs. Ron](#) – C# | .NET Core | Multiple APIs | JSON
- [Random Activity Generator](#) – C# | .Net Core

EXPERIENCE

Co-Owner – Honeywell Properties, LLC (2018 -2022)

- Small value-add real estate investment company
- Worked directly with property management teams, contractors, and investors to ensure the rental units were clean, safe, and rented
- Maintained all receipts, invoices, and billing

Engineering Assistant – Crosstown Engineering (2015 – 2018)

- Crafted engineering reports and created AutoCAD drawings of each building
- Lead the design team
